<b>Tirana</b>	<b>Canadian Institute of Technology</b>	<b>October 2019   September 2022</b>
---------------	---	--------------------------------------

- Bachelor's Degree in Software Engineering. GPA: 3.9 (Total)

## Employment & Internships

---

<b>Wordpress Developer</b>	<b>Soft &amp; Solution</b>	<b>October 2022 – Present</b>
----------------------------	----------------------------	-------------------------------

Tirana, Albania

- Develop and maintain the company's website, ensuring that it is visually appealing, easy to navigate, and user-friendly.
- Troubleshoot and resolve website issues, including broken links, slow load times, and technical problems.

### Laravel Developer

- Managed a team of developers as the lead programmer for a project aimed at improving government software.
- Using the Laravel framework, I successfully implemented important modifications that were necessary for updating and optimizing existing software. I also actively promoted collaboration and efficiency by taking part in project planning, sprint retrospectives, and agile techniques.

### C# Developer

- Using the C# programming language to assess, create, and execute modifications and improvements to current government websites.
- Writing clean, efficient, and maintainable code to add new features, improve functionalities, and address issues on various web applications.

<b>Node Js Backend Developer</b>	<b>Internship - Kodo Academy and Division5</b>	<b>September 2021 – December 2021</b>
----------------------------------	--	---------------------------------------

Tirana, Albania

- Proficient in RESTful API design and development with a strong grasp of NPM and expertise in modular application development.
